Forecast For Wales
Issued by Met Office Exeter
at 0400 on Thursday 28 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A mostly dry day, but turning wet and windy later.

Today:
A damp start for some but soon turning dry through the morning. Mostly cloudy but spells of sunshine are still possible. Outbreaks of rain, some heavy, will move in from the west during the evening. Breezy initially and feeling mild. Maximum temperature 12 deg C (54 deg F).

Tonight:
The rain will spread to all areas during the evening before clearing eastwards. Dry for a time before showers during the early hours. Gales along the south coast before dawn. Minimum temperature 5 deg C (41 deg F).

Friday:
Outbreaks of rain will clear, and winds will quickly ease during the morning. A mostly dry afternoon, with some sunny spells and patchy rain places. More rain moves in overnight. Maximum temperature 10 deg C (50 deg F).

Outlook for Saturday to Monday:
A risk of rain, snow, and strong winds on Saturday, easing later. An icy and dry start to Sunday, with rain and snow later. Cloudy and mostly dry on Monday.
